

Creame rises to the top

Regina King and Peter Flowers

11Nov07

HARD to believe that until Belinda Zammitt (pictured) started work for Zarraffa's Coffee at Harbour Town, she had never set foot inside a coffee shop.

How things have changed because she has just been awarded the title of top barista for all the Zarraffa's stores which makes her the best of the best.

Possessing as she does a short black belt in the art of superior coffee making, Belinda told the one thing that happens to most baristas.

``You would be amazed how many people come in and order a cappuccino but request that it be made with no milk froth. We always reply, `So what you want is a flat white'.

Without fail the answer back is, `No, I want a cappuccino without any froth'. As the customer is always right we make a flat white and let them go on their merry way."
